

VOCATIONAL REHABILITATION CASE MANAGEMENT (VRCM)

What is it?

A bespoke service providing specialised employment transition support to client's who are seeking new employment opportunities in their local labour market. The **JSD** service includes;

- Identification of suitable local job vacancies
- Assistance with CV writing, job applications and covering letters
- Job seekers training
- Support with company research
- Interview coaching including disability disclosure
- Assistance with job creation and employer negotiation.

Who is it for?

Ideal for clients who have participated in a vocational evaluation as part of a rehabilitation programme and require specialist assistance to maximise employment opportunities in their local labour market.

How is the service offered?

The service is designed to meet the individual's job seeking and job development requirements. This service is delivered in three phases;

- Establishment and agreement of service (goals and timescales) with report to outline resources, timescales and associated costs to achieve objective
- Ongoing monitoring to ensure consistent progress with update report
- Final report following an evaluation of successful new employment to ensure long term success.

Service delivery is through a combination of face-to-face, telephone and online-specialised support for moving into new employment.
